**WARSASH SAILING CLUB
STARTER/RECORDER TABLET**

1. Use Kiosk to help sailors sign ashore or afloat
-Select **eTally** icon in top left of screen and enter details;
CLUB : WARSASHSC PIN : 123123
2. Use Halsail for start sequence and recording Finishers
Device will remember Username and PW
3. Use RO app to check boats signed afloat and ashore
PIN : 123123

Kiosk HalSail RO app

Sign in

The sign on details are saved in the device. Tap in the email box and the WSCResult@ sign in details will be offered. Select Sign in

On this device you can record times as boats cross the finish line, add status (eg RET, OCS) alter start times and send emails and posts on social media.

You will need a full-size device to set up a new account, to change your boat register, or add races to the schedule.

Use saved password?

You'll sign in to www.halsail.com

In addition you can

Quick links

Use the **Output menu** to send notice to the world that your results are available. You can print them for your notice board, send emails, or post on social media.

Use the **Links menu** to get the web addresses of your results (URLs) to put on your own website. You can also check exactly what will be seen by the public when they view your results.

Use the **Tools menu** to see the start sequence of flags that you will need on any particular day. You can also check series winners, turnout analysis, handicap analysis and guest helms.

See your results

Install HalSail
on your phone

Start sequence

The screen will default to show the races scheduled for the day. [Check the date is today's.](#)

If starts are to be combined, [Select the required start time/s and adjust.](#)

To view the countdown clock. [Select all fleets with the check box on the left as shown and Select Count down.](#)

10:29	Fast 2024 prep down		↓
10:30	Fast 2024 start		↓
"	Medium 2024 warning		↑
10:31	Medium 2024 prep up		↑

Recording boats

Make a written list of boats in the start area before the start.

Later, after the start, check your list against the those signed afloat in the Sailevent RO app (see RO App guide) and amend Sign afloat status of boats if registered.

This is a safety measure. Boats who have failed to sign afloat or ashore will have a 5% penalty applied to their finish time by the results coordinators

It is possible to manually add boats to Halsail but this is not necessary as boats who have not registered have not made the requisite declarations of entry and should not be given a result.

Recording the Finishers

Select Dashboard in the Countdown menu

Select Choose races and enter results

Select race(s) checkboxes and Select Enter results

Race day details

Enter RO and wind condition details.

Enter these details now to stop this screen from popping up again

Input details of the race officer and wind ✕

Record finishers

Boats (blue buttons) are shown, sorted by Sail number. Boats signed afloat appear first and are indicated by the **Green** eye symbol. Boats not signed afloat will contain a **Red** eye symbol

Press on a boat for 1.5 to 2 seconds to record a finish time for that boat. The button will turn Green and the recorded time will display
